

## A Message from the Rousseaus:

This year marks the start of 37 years offering Maine hockey players the opportunity to better enjoy the great game of hockey. What started as a small power skating clinic in 1986 has grown to the states most active hockey school. Since 1986 we have had the privilege to train with more than 10,000 Maine hockey players. Today, Rousseau's Hockey clinic trains nearly 700 hockey players each year.

Our family grew up playing and teaching hockey, and the game has served as a powerful agent in our own personal development. Further, we have made many long-lasting friendships along the way. Hockey has provided us with the opportunity to spend time together and to develop a lifelong emphasis on learning, fitness and growth. Rousseau's Hockey Clinic is a family run hockey school, and we consider ourselves fortunate to still be able to skate with our Dad and with each other and to have the opportunity to share the same experiences with our own children.

Rousseau's Hockey Clinic began with a core philosophy that players with better skills have more fun playing hockey. We believe that hockey can only truly be enjoyed through hard work and commitment. We also believe that hockey can be used as a tool to develop a young person's life skills. We are proud of the fact that we have not wavered from this philosophy and our passion for helping our students better enjoy the game endures.

Each year we receive several testimonials from past students sharing their positive experience with our program and the advances that they have made in their hockey skills and enjoyment of the game. What really warms our hearts are the experiences that they share citing the impact that our program and teachings had on their lives and how they are now passing these values on to their children.

We are a family of hockey coaches and have been studying the game for more than 36 years. We have learned how to break down the games skills and concepts to its roots and have developed a curriculum to effectively teach them to players of all levels. Playing hockey is about having fun. It's fun to compete, to improve, to work toward a goal and to achieve it. We hope to have the opportunity to share time with you on the ice this off-season

## The Staff...

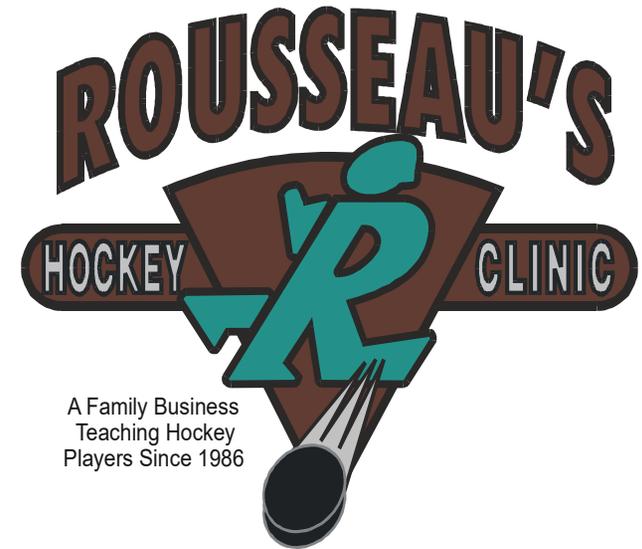

The senior staff at Rousseau's Hockey Clinic includes coach Guy Rousseau, his sons, Gary and Scott, his three grandchildren Adam, Erik and Lauren and lead goalie instructor John Racine. The family shares tremendous hockey knowledge, vast experience in teaching hockey players, and a demonstrated commitment to helping Maine hockey players improve. The Rousseau family has been conducting their clinic since 1986, revealing their deep understanding of the details involved with proper skating, puck control, and passing skills, but also revealing their methodical and effective approach in sharing this knowledge with players of all ages.

Rousseau's Hockey Clinic also employs a staff of nearly 30 additional instructors and goalie coaches. All instructors are active in youth hockey organizations across the state and all share the Rousseau's passion for the game.

Finally, a number of current and former Rousseau's Hockey Clinic students help balance our staff while serving as counselors. They are all accomplished players in their divisions and support the practice sessions as role models. In addition to possessing quality hockey skills, all of our counselors are engaging young men and women who provide our students with an important level of personal attention during clinic sessions.

### The Program...

Our Summer Youth clinics offer young hockey players between the ages of 5 and 15 the opportunity to develop fundamental hockey skills and to apply those skills each week in a controlled scrimmage.

We have divided our summer youth clinic into our three core divisions. Each division will skate once a week for a total of seven weeks.

- Junior Division: (ages 5 to 8) - \$340**
- Minor Division: (ages 9 to 11) - \$340**
- Major Division: (ages 12 to 15) - \$340**

Each division will skate two hours per week. The first hour of ice time will consist of fundamental instruction. During the second hour of ice time, we will conduct a controlled scrimmage where we will concentrate on increasing the speed of play and offering individual instruction during playing time. Between hours, we will hold a classroom discussion where we will focus on various topics including: conditioning; mental preparation; and advanced team play.

Our youth clinics will also include instruction specific to goaltenders. We will have a goalie instructor at each session who will work with the goalies on skills specific to the position.

Each division includes 14 hours of ice time, a high quality jersey, and over 100 years combined experience in developing hockey players. A deposit of \$150.00 is due with your application, and the balance is due prior to the first session.

Applications will be accepted on a first come, first served basis and space is limited. We encourage you not to hesitate in returning your applications. Our clinics fill very quickly and we are often forced to return applications. We hope to have the opportunity to train with you this summer.
